Many Medical Professionals believe that VA law aligns with medical malpractice law and that couldn't be further from the truth. The language used in VA law is much different than medical malpractice, social security, and workers compensation law.

MOPP has been created to assist Medical Professionals with writing a medical opinion in the language required by the VA and is updated as new case law is established. References to specific VA laws are tucked within MOPP.

There is no better person than a veteran's own treating provider to write a medical opinion for their claim.

Upon completion of MOPP, a medical opinion meeting the VA standards will be displayed in PDF format for download/print.

If you are willing to complete this form on behalf of your veteran patient, please let the veteran know and they will provide you with an access code to get started!
